

Plan Management

Why choose Southern Stay for Plan management?

We give you the freedom to make your own choices.

You can choose the providers you want, including those that may not be registered with the NDIA.

Your funds are managed by an experienced accounts department. We pay the provider - handle the claims and keep all of the records.

We provide you with access to your budget information and keep you up to date with quarterly statements.

There are no extra costs as the funding for plan management will have already been included in your plan or you can ask the NDIA to include this funding.

There are no money or administrative hassles associated with Plan Management
